## Summary

---

Electronics Engineering undergraduate with strong expertise in full-stack web development. Experienced in building scalable web applications, authentication systems, and backend-heavy platforms using modern TypeScript frameworks. Actively seeking internship and startup opportunities in full-stack, front-end, or back-end development.

## Technical Skills

---

- **Languages:** C++, Python, JavaScript, TypeScript
- **Web & Backend:** React, NestJS, MERN Stack, MongoDB, PostgreSQL, NeonDB, Appwrite, DOM
- **UI & Animations:** ShadCN UI, GSAP, Responsive Design, Parallax Effects
- **Core Electronics:** VLSI
- **Tools:** Git, Figma

## Projects

---

### Zurfa — All-in-One AI Platform

- Built a unified AI platform integrating multiple productivity and automation features
- Focused on scalable architecture and modern UI/UX patterns

### Media Vault & WENT — Social Media Web Applications

- Developed backend-intensive social media platforms with secure APIs
- Implemented authentication, data handling, and role-based access control

### MyAuth — Authentication System

- Designed secure authentication workflows using JWT and OTP-based verification
- Focused on privacy, session management, and secure user onboarding

### E-Commerce Application

- Built a full-stack e-commerce web app with product listings, authentication, and database integration

### Frontend & UI Projects

- Designed multiple responsive websites using AI-assisted workflows
- Implemented advanced UI effects including parallax scrolling and smooth GSAP animations

## Experience & Leadership

---

### Publicity Manager — PACE

- Managed promotions, outreach, and event publicity strategies
- Coordinated with cross-functional teams for event execution

### Member — ELESa

- Active member contributing to technical and academic initiatives

## Education

---

### Walchand College of Engineering, Sangli

Bachelor of Technology in Electronics Engineering

*Expected Graduation: 2028*

- Organized and contributed to technical and academic events

## Achievements & Certifications

---

- Udemy — Full Stack Web Development Certification
- Google — Introduction to Generative AI
- Won **Best Presentation Award** twice
